## High Power Electronic Engineer (M/F)

**Location:** Caparica

Our client, a prestigious company in the space sector, located in Caparica, intends to recruit a High Power Electronic Engineer.

### **Responsibilities:**

The candidate will be directly integrated in projects of extreme relevance for the company, in which he will be responsible for the elaboration of drivers for electric motors; assembly of high-voltage circuits; support to the laboratory team and the production of several components necessary for the development of the project.

### **Requirements & Qualifications:**

- Bachelor's or Master's Degree in Electrotechnical Engineering (preferred) or similar;
- Experience in the area of high power electronics (2-3 years);
- Experience in the field of industry and design (reading and interpreting schematics, supporting documentation) is an asset;
- Good communication skills (mainly with suppliers in a technical area);
- Ability to streamline and timely responses;
- Ability to organize, plan, analyze, critically and rigorously;
- Ability to solve problems;
- Responsible, proactive and dynamic;
- Responsibility and autonomy;
- Fluent English level (spoken and written).

### **Offer:**

- Salary package based on experience and skills.
- Strong possibility of continuous growth and career development.

If you meet the above requirements, please send your application via email: [careers@qsr.consulting](mailto:careers@qsr.consulting) with reference to T201906\_PRO\_High Power Electronic Engineer (M/F)
